FOR IMMEDIATE RELEASE

60 is the New 50 With Morphosis Liquid Face Lift *Take years off in a gentle, highly effective, quick and affordable manner*

SAN JOSE, SANTANA ROW...Helping men and women to look as young as they feel is not new to Linda Levenson, M.N., N.P., MEP-C, owner and founder of Morphosis Rejuvenation Studio in Santana Row. Linda opened Silicon Valley's first Medi-Spa in a high fashion retail environment in 2003. Today, that Medi-Spa adds Morphosis Liquid Face Lift to its long list of signature treatments.

Our studies show that looking your age has become less and less attractive. And physically active people are more interested than ever in 'looking as good as they feel' not 'looking their age'.

According to Levenson, "The most common signs of aging occur under the eyes and around the cheeks and mouth area. As we age, the natural collagen and elastin is lost resulting in bags under the eyes, frown lines, deep wrinkles or creases in the cheeks and laxity around the jowl lines. For those who pride themselves on their appearance, the effect is dramatic and unwelcoming.

Morphosis liquid face lift is not the Fountain of Youth, but it does replace lost volume in the face which helps to restore a rested and youthful look. The treatment is a combination of BOTOX® and the latest Dermal Filler products, such as Radiesse, a calcium-based filler and/or Juvederm, Restylane, Perlane, which are hyaluronic acid-based fillers).

While some of the products have been available for sometime, the importance of achieving the best results lies in the clinician's advanced injection technique, the unique needs of each individual patient, physical contour of the face, and the knowledge of what product to use and how much to inject. To determine the natural facial contour, Morphosis invites each client to bring in a photo of their younger self. The results are fabulous.

Recent Male client, "What a difference Morphosis Liquid Face Lift made. People noticed it right away. Yet it wasn't like this big change. It is truly remarkable. People are commenting on how much younger and rested I look. Removing the deep creases in my cheeks and frown lines literally took years off."

Recent Female client who just turned 60 and is unhappy about her dramatic facial changes. "I finally got organized to have some work done with Linda. I am very pleased with the results. Thanks so much for the tip. There's hope for me after all. And oh it's so nice to look into the mirror and see my old [younger] self.

Morphosis experienced clinicians attend routine training in order to keep up with the latest advances in non-invasive treatments. All treatments begin with a complimentary consultation. Since announcing the Morphosis Liquid Face Lift, we are experience a remarkable increase in treatments. For more information visit www.morphosisstudio.com, or call 408.984.9800 or stop in Santana Row.

2-2-2-2-Morphosis
