

## *Where It's Never Been So Easy To Look So Good*

By: Ginger Taylor McDonald

**M**orphosis Rejuvenation Studio has inspired its clientele since 2003. The beautifully designed studio is in Santana Row's European style community of shopping, entertainment and luxury living.

Linda Levenson, M.N., N.P. MEP-C, owner and founder of Morphosis Rejuvenation Studio, designed the concept based on her personal experience. She knows the challenges active people face in managing family, work and play. It's not easy. Yet making time for ourselves is important. Walk-ins are welcome and treatments are easy to schedule during lunch, while shopping or after work. Morphosis' highly trained staff provides its clientele with personalized treatments designed to address their specific skin care needs, all without downtime.

At Morphosis, your initial visit begins with a complimentary, personalized consultation performed by Linda. "During your consultation I'll analyze the condition of your skin and together we will talk about your skin care goals," says Linda. "One of the quickest ways to determine your goals is through the use of a mirror. When you look in the mirror what do you see?"

"What is it about your skin that is no longer attractive to you? Does it lack that healthy appearance? Are the telltale signs of aging: creases, frown lines, or wrinkles a concern? Are the broken capillaries, dark spots, uneven skin tones, enlarged pore size, and rough skin-texture a worry? Is facial and/or body hair displeasing? Are you uncomfortable with the laxity along the lower face or neck areas? Or do you shy away from summer apparel due to pockets of cellulite in areas of your body?"

"Our discussion helps us to set priorities and to create a personalized program of treatments and medically directed products that dramatically improve the condition of your skin," Linda says.

Linda might recommend PhotoRejuvenation, PhotoMorphosis (Morphosis' signature treatment), SilkPeel, Chemical Peels, Titan<sup>®</sup> or AccentXL. These treatments will take less than an hour and are designed to produce excellent results.

To restore a more youthful appearance, Linda will discuss Morphosis signature Liquid Face Lift and invite you to bring in a picture of a younger you to be used as an ideal model. Morphosis Liquid Face Lift is a highly trained technique application that combines BOTOX<sup>®</sup> and cosmetic fillers.

**Morphosis Rejuvenation Treatment *Where It's Never Been So Easy so Look So Good*** will add a new vitality and a fresh perspective of a new you.
